Sequential dispenser for adhesive ban-

| EXCLUDED FROM THIS CLASS ARE: | dages, m | nedicaments, suture, etc.; see D6- | |
|--|--|---|--|
| Adhesive bandage tape dispenser; see D19-67+. | | meter; see D10-81. | |
| Air filter; see D23-365. | = | Stretcher; see D12-128+. | |
| Athletic supporter; see D2-711 | Surgical gown; see D2-860. | | |
| Backscratcher; see D28-91.2. | | lighting; see D26-24+. | |
| Barbell or dumbbell; see D21-681+. | | scrub basin; see D23-284+. | |
| Bed sheet or surgical drape; see D6-602. | Thermometer; see D10-57+. | | |
| | • | | |
| Cabinet or storage article, general purpose; see D6-329+. | Toothpick or dental floss holder; see D28-65+. | | |
| Carrier or storage container for medical | Treadmill; see D21-669. Tubing, per se, for fluids; see D23-266. | | |
| equipment; see D3-203. | | | |
| Casket or body recovery container; see D99-1+. | Water distillation unit; see D23-207. | | |
| Chemical contact lens sterilizing or storage unit; see D3-264. | | | |
| Chemical measuring instrument; see D10-81. | 100 | PHARMACEUTICAL PRODUCT (2) | |
| Crutch or walking support; see D3-7+. | 101 | .Tablet or caplet (3) | |
| Dentist's chair; see D6-334+. | 102 | Simulative (4) | |
| Environmental humidifier or vaporizer; see | 103 | Scored for dosage control | |
| D23-355+. | 104 | .Capsule | |
| Film processing equipment; see D16-246+. | 105 | PROPHYLACTIC ARTICLE (5) | |
| Funnel, general purpose; see D23-200; | 106 107 | .Ear plug or nose clip EQUIPMENT FOR DIAGNOSIS, | |
| household type; see D7-700. | 107 | ANALYSIS, OR TREATMENT | |
| Goggles per se; see D16-303 and 311+. | 108 | .Article for the introduction, | |
| Ion generator; see D23-364. | | removal or collection of | |
| Kiln, crucible, or furnace; see D15-144.1. | | fluids (e.g., infusion, | |
| Light panel for viewing film; see D16- | | <pre>extraction, irrigation, etc.) (6)</pre> | |
| 221+. | 109 | Lacteal extractor | |
| Massaging brush for scalp; see D4. | 110 | Respirator, vaporizer, or | |
| Medicinal container of a disposable | 110.1 | inhalation tube (7) | |
| nature; see D9. | 110.1 | Including eye shield (71) | |
| Patient footwear; see D2-919+. | 110.3 | Helmet type | |
| Patient gown; see D2-720. | 110.4 | Including provision for tube | |
| Photograhic transparency or film mount; see D14-482. | 110.5 | Inhalation tube or mouthpiece type (72) | |
| Physical conditioning or exercising equipment; see D21-662+. | 110.6 111 | Regulator or valveInfusion or irrigation pump | |
| Protective mouthpiece; see D29-108. | | (e.g., dental irrigation unit, | |
| Radiation detection equipment; see D10-47. | | powered douche unit, etc.) (8) | |
| Rack for nursing or baby bottle; see D7-701+. | 112 | Conduit or nozzle (e.g., syringe, cannula, catheter, | |
| Radio transmitter for transmitting cardiac data; see D14-155. | 113 | etc.) (9)Hand actuated flow control (e.g., lever, button, etc.) | |

- (9) Includes nozzle, per se; For biopsy probe, see subclass 147; For pipette, see subclass 222; For fluid delivery article combined with dental work station or console, see subclass 177; For similar article designed to insert solid material into body cavity, e.g., solid medication, see subclass 141. For nursing nipple, see subclass 194.
- (10) Includes dropper type; For dropper combined with "test kit", see subclass 223; For pipette, see subclass 222.
- (11) For spoon, per se, see Class D7-653+.
- (12) Includes reservoir, per se; For vessel used when evacuation is active rather than passive (i.e., urinal or bedpan without conduit element), see subclasses 121+. For nursing bottle see subclass 197.
- (13) Includes douche or enema bag; For hot water or ice bag, see subclass 207.
- (14) Includes inoculation loop; For between-teeth gum stimulator, see D28-64.
- (15) For similar article including means for conduit delivery (i.e., fountain syringe type), see subclasses 117+; For specimen handling or for medication storage container (e.g., vial, test tube, etc.) see subclass 224.
- (16) For sample vial type, see subclass 224.
- (17) For similar article having a conduit element, see subclasses 117+.
- (18) For bandage, see subclass 189.
- (19) Includes holder; For application device or tool, see subclass 141; For contraceptive article, see subclass 105; For pessary, see subclass 135.
- (20) For tray or rack, see subclass 227. For filter, see subclass 162.
- (21) Includes cover; For general specimen or specimen container holder, see, respectively, subclass 224 and 227; For fluid container holder that is not patient-interactive, e.g., syringe rack, medication tray, etc. see subclass 227.
- (22) For tubing clamp, see subclass 143.
- (23) For clamp, see subclass 143; For needle, catheter or conduit, per se, see subclass 112.

- (24) Element included in this and in indented subclasses; For cardiac resuscitative stimulator, see subclass 167; For kinesitherapy article, see subclass 200; For medical treatment fixed equipment, see following coordinate subclasses; For specimen handling, preparing or testing article, see subclass 216; For holder, see subclass 227; For sphygmomanometer, see subclass 165; For pipette, see subclass 222.
- (25) For generic transducer, see subclass 187; For sphygmomanometer, see subclass 165.
- (26) Includes pessary; For remote or direct viewing instrument, see subclass 137 to 139.
- (27) For direct viewing hand instrument (e.g., optoscope, ophthalmoscope, etc.), see subclass 137.
- (28) For rectilinear piston or plunger fluid delivery article, see subclass 114.
- (29) Includes penile blood flow limiter device; Includes hand manipulated tourniquet; For mechanical or electronic tourniquet, see subclass 169; For sphygmomanometer cuff, see subclass 165.
- (30) Includes laser type; Includes tattooing instrument.
- (31) Includes fastener, per se; Includes stapler; For clamp, see subclass 143.
- (32) For dental drill combined with work station, see subclass 177; For tattooing instrument, see subclass 144; For broach, burr or drill component, see subclasses 147+.
- (33) Includes acupuncture needle; Includes biopsy needle; Includes blade or carrier therefor; Includes broach, burr, drill, etc.; Includes curette or scraper; For between-teeth gum stimulator, see D28-64.
- (34) For dental work station, see subclass 177; For drilling, scraping, brushing or abrading instrument, see subclass 146.
- (35) For cleaning unit, see subclass 217; For orthodontic appliance, see subclass 180; For holder, see subclass 227.
- (36) Includes element, e.g., film or plate holder, etc.; For body or limb support, see subclass 183.
- (37) For patient support, per se, see subclass 183.

- (38) For more comprehensive treatment equipment for air, blood, or other fluids, see subclasses 164 and 169.
- (39) Includes therapy equipment; For blood alcohol level measuring or detecting by means of breath analysis, see subclass 169; For nose or mouth contacting article, e.g., vaporizer, inhaler, mouthpiece or airway tube, see subclass 110. For heartlung machine, i.e., blood oxygenator, see subclass 169. Includes snore-inhibiting device.
- (40) For general purpose electrode or contact, see subclass 187; For heart-lung machine, i.e., blood oxygenator, see subclass 169.
- (41) Includes paddle, electrode or contact, per se.
- (42) Includes oxygenator or heart-lung machine; Includes blood alcohol percentage measurement device; For chemical or biological testing equipment lacking instrumentation, see subclasses 216+; For filter, see subclass 162; For hemostat or other hand manipulated tool, see subclasses 133+ and 143; For fluid pump or infusion article without treatment characteristic, see subclass 111; For blood pressure measuring instrument, see subclass 165. Includes oximeter, tourniquet, blood gas treatment device and organ fluid warmer.
- (43) For hand manipulated cutting or electrolysis instrument, see subclasses 144 and 147; For body contact, electrode, etc., see subclass 187. Includes laser unit.
- (44) For body support surface, see subclass 183; For therapeutic apparatus (e.g., traction unit, etc.), see subclass 188.
- (45) For contact lens sterilizer, see subclass 218.
- (46) For ear plug, see subclass 106.
- (47) For infant teething article, see subclasses 194+; For kiln or melting crucible, see D15-144.1; For tray, rack or holder, see subclass 227; For amalgam mixer, see subclass 221; For body support, per se, see subclass 183; For irrigation type cleaner, see subclass 111; For denture cleaner, see subclass 217.
- (48) For nondental patient service unit or console, see subclass 185.

- (49) Includes dental molding flask or impression tray; Includes repair shade quide; For mixing slab, see subclass 221.
- (50) For similar support combined with dental service unit, see subclass 178; For body-attached support such as splint, see subclass 190; For kinesitherapy article, see subclass 200. Includes therapeutic pillow or body support.
- (51) Includes uriometer; For specimen testing, e.g., medical testing instrument used in laboratory environment, see subclass 216.
- (52) For stethoscope transducer, see subclass 134; For hearing aid transducer, see subclass 174; For diathermy electrode, see subclass 206.
- (53) Includes, in this subclass, exercise unit not elsewhere specified; For electrode or contact, see subclass 187; For electrotherapeutic equipment or cabinet, see subclass 200.
- (54) Includes adhesive hair removal strip; infusion anchor and nasal anchor; For catamenial article, see subclass 125.
- (55) For passive body support or rest surface, see subclass 183; For orthodontic appliance, see subclass 180; For antithumbsucking device, see subclass 193; For traction article, see subclass 188; For penile blood flow limiting device, see subclass 143.
- (56) For diaper, see subclass 126.
- (57) For nursing bottle claimed in combination with nipple, see subclass 197.
- (58) Includes shell for disposable or flaccid type container; For nipple, see subclass 194.
- (59) For generic therapeutic "cabinet", see subclass 188; For cardiac treatment article, see subclass 167; For orthopedic exercise or traction article, see subclass 188.
- (60) Includes foot bath; For water or bubble circulator or generator, per see, see subclass 201.
- (61) For similar article with provision for fluid flow, see subclass 118.
- (62) For x-radiation treatment, see subclass 158.

- (63) Includes microtome; For patient interactive equipment, e.g., syringe, electrocardiographic equipment, dental work station, etc., see preceding coordinate subclasses.
- (64) Includes mortar, pestle, muddler, etc.; Includes pill crusher; For reagent material container or for carrier therefor see, respectively, subclass 224 and 227.
- (65) Includes pregnancy test set; For reagent vessel or test strip, per se, see subclass 224; For vessel holder, per se, see subclasses 227+.
- (66) Includes vessel for medication; For patient interactive vessel such as urinal, bedpan, etc., see subclass 121.
- (67) For holder for use in centrifuge, see subclass 219; For vessel, per se, see subclass 224.
- (68) Includes clean air work station; For burette, see subclass 222.
- (69) Includes clean air work station, air lock, etc.
- (70) Includes white noise generator.
- (71) Includes air-supplying outer space or underwater helmet and underwater swim mask that covers both the eyes and nose. For eyewear that does not occlude or filter air for breathing, see D16-300+. For eyepiece element, see D16-101+. For protective headgear combined with transparent eye shield, see D29-110.
- (72) Includes snorkel.
- (73) Includes crash cart.
